The ICT based teaching:

- **Video lectures:**
  Instead of routine teaching methods, students are shown NPTEL and other relevant lectures on some topics from the syllabus as well as beyond syllabus.

- **Google Classroom:**
  Google Classroom is used to upload the notes and the recordings of the lectures

- **Movies:**
  Movies which help to groom the students for interpersonal skills are shown.

- **Animations:**
  Animation videos on topics from a subject were shown to the students for better understanding of the concepts.

- **Power Point Presentations**:
  Some of the concepts are conveyed to the students with explanation using power point presentations.

- **Google Forms:**
  Google forms are used for conducting online quizzes

- **Smart Pad:**
  Teachers used smart pads for writing while explaining the concepts

- **SQL:**
  SQL is used to conduct live quizzes.
